PROFESSIONAL SUMMARY

IT undergraduate pursuing a National Diploma in Information Technology (NDT IT) at the Institute of Technology, University of Moratuwa (current GPA 3.26). Hands-on experience building full-stack web applications using the MERN stack, React.js, Spring Boot, Java, PHP, MySQL, MongoDB and REST APIs. Completed projects include a final year Seettu management platform, a library management system, an e-commerce system and an inventory management system. Contributor to three open-source programs with good teamwork and communication skills. Seeking a Software Engineering Internship to learn and contribute to real-world software products.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6+), TypeScript (learning)
Backend: Spring Boot, Java, PHP, REST API design, role-based authentication , Node.js (learning), Express.js (learning)
Databases: MySQL , MongoDB (learning),
Cloud & DevOps: AWS (AWS Educate), Linux, Git, GitHub, Docker (learning)
Other Languages: Python, C
Tools: VS Code, IntelliJ IDEA, XAMPP, Postman, Figma, Canva,Power BI
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management
Languages: Tamil (Native), English (Fluent), Sinhala (Basic)

EDUCATION

National Diploma in Information Technology (NDT IT) *Oct 2024 - Present*
Institute of Technology, University of Moratuwa (ITUM), Sri Lanka

- **Current GPA:** 3.26
- Coursework in Web Development, Digital Marketing , Business Intelligence , Cybersecurity, Databases, and Software Engineering principles.
- Hands-on training in API design and deploying secure full-stack web applications.

GCE Advanced Level (Physical Science Stream) *2018 - 2020*
BT/BC Oddamavadi Central College, Batticaloa, Sri Lanka

FEATURED PROJECTS

SeettuManager - Digital Seettu (ROSCA) Management Platform (Final Year Project) *Full-Stack, JWT, RBAC*

- Engineered a secure, mobile-responsive web platform that digitizes traditional Sri Lankan rotating savings and credit associations (Seettu), replacing paper-based record-keeping.
- Implemented role-based access control (Admin, Organizer, Member) with stateless JWT authentication.
- Automated cycle scheduling with rotational payout, bidding, and daily cycle tracking; recorded offline cash and bank payments with audit trails and overdue notifications.
- Developed an algorithmic Financial Discipline Score (0-100) for automated credit scoring and high-risk member detection to mitigate default risk.
- Built dispute ticket management with multi-level escalation, trilingual support (English, Sinhala, Tamil), and PDF audit reports and completion certificates.

LibriQ - Sri Lankan University Library Management System *MERN Stack*

- Built a MERN circulation platform tailored to Sri Lankan university standards with role-based permissions for Librarians and Students.
- Implemented a trilingual interface with a language switcher for English, Tamil, and Sinhala.
- Added barcoded accession numbers (ACC-...), Dewey Decimal call numbers, and student index rosters.
- Automated late-fine calculation in LKR at Rs. 10 per day.

STYLEO Ceylon - Full-Stack E-Commerce System *Express.js, MySQL 8, REST API*

- Built a production-ready 3-tier apparel platform with an asynchronous native fetch() client and an Express REST API.
- Designed a normalized MySQL 8 database with ACID transactional checkout.
- Added live courier tracking.

SCM - Inventory Management System - Group Project *React, Spring Boot, MySQL, REST APIs, Java*

- Built a full-stack inventory management system with Spring Boot, React, and MySQL, providing real-time stock monitoring, transaction tracking, and product catalog management.
- Developed product management (create, update, delete) with SKU management, categorization, and unit price control.
- Implemented stock IN and OUT transactions with transaction history logging and an inventory monitoring dashboard.
- Added automatic low-stock detection with reorder level monitoring and visual alert indicators.
- Configured CORS for frontend-backend integration; built supplier control panels and invoice publishing features consuming REST APIs, plus database backup for data integrity.

Event Hub - Student Event Management System *PHP, MySQL, JavaScript, HTML5, CSS3*

- Built an academic event scheduling portal with user login, registration, and organizer control systems.
- Developed administrative dashboards for event analytics with automated email notifications.

OPEN SOURCE EXPERIENCE

- **Social Winter of Code (SWOC '26), SafeHaven:** Resolved front-end layout and alignment bugs, refined form validations, and styled buttons for mobile.
- **Open Source Connect Global (OSCG '26), blockchain-evidence:** Improved codebase documentation and code readability.
- **Social Summer of Code (SSOC '26), E-commerce:** Optimized UI pages and localized CSS files for pixel-perfect renders.

CERTIFICATIONS & ACHIEVEMENTS

- Frontend Developer(React) - HackerRank
- Docker for Absolute Beginners - KodeKloud
- Cyber Security Essentials (LFC108) - The Linux Foundation
- Agile Scrum Foundation - Simplilearn
- Front-End Web Development - University of Moratuwa CODL
- Cyber Security Pathway - Cisco Academy
- HackerRank: Java (Basic), SQL (Basic), CSS (Basic), Python (Basic), JavaScript (Basic)
- Python for Beginners and Web Design for Beginners - University of Moratuwa CODL
- SoloLearn: Python Course, SQL Course
