PROFESSIONAL SUMMARY

IT undergraduate pursuing a National Diploma in Information Technology (NDT IT) at the Institute of Technology, University of Moratuwa. Hands-on experience building full-stack web applications using the MERN stack, React.js, Spring Boot, Java, PHP, MySQL, MongoDB and REST APIs. Completed projects include a final year Seettu management platform, a library management system, an e-commerce system and an inventory management system. Contributor to three open-source programs with good teamwork and communication skills. Seeking a Software Engineering Internship to learn and contribute to real-world software products.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (ES6+), TypeScript (learning)
Backend: Spring Boot, Java, PHP, REST API design, role-based authentication, Node.js (learning), Express.js (learning)
Databases: MySQL, MongoDB (learning)
Cloud & DevOps: AWS (AWS Educate), Linux, Git, GitHub, Docker (learning)
Other Languages: Python, C
Tools: VS Code, IntelliJ IDEA, XAMPP, Postman, Figma, Canva, Power BI
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management
Languages: Tamil (Native), English (Fluent), Sinhala (Basic)

EDUCATION

National Diploma in Information Technology (NDT IT) *Oct 2024 - Present*
Institute of Technology, University of Moratuwa (ITUM), Sri Lanka

- **Latest semester GPA:** 3.72/4.00
- Coursework in Web Development, Digital Marketing, Business Intelligence, Cybersecurity, Databases, and Software Engineering principles.
- Hands-on training in API design and deploying secure full-stack web applications.

GCE Advanced Level (Physical Science Stream) *2018 - 2020*
BT/BC Oddamavadi Central College, Batticaloa, Sri Lanka

FEATURED PROJECTS

SeettuManager - Digital Seettu Management Platform (Final Year Project) *React.js, Spring Boot, Java, MySQL, REST APIs, JWT, RBAC*

- Developing a full-stack web application to digitize rotating savings groups (Seettu) in Sri Lanka and improve financial record management.
- Implementing role-based access control (Admin, Organizer, Member) and JWT-based authentication.
- Designing database structures to manage savings groups, members, contribution cycles, and payment records.
- Developing payment tracking features to monitor paid, pending, late, and overdue contributions.
- Working on dispute management, audit logs, financial discipline scoring, and PDF report generation.

LibriQ - University Library Management System *MongoDB, Express.js, React.js, Node.js*

- Developed a MERN-stack library management application for managing library circulation and student records.
- Implemented role-based access for librarians and students.
- Created a multilingual interface supporting English, Tamil, and Sinhala.
- Implemented accession number management, Dewey Decimal classification, and automated overdue fine calculation.

STYLEO Ceylon - E-Commerce Web Application *JavaScript, Express.js, MySQL, REST APIs*

- Developed a full-stack e-commerce application for an apparel store using Express.js and MySQL.
- Designed relational database tables to manage products, customers, and order information.
- Integrated a JavaScript Fetch API client with backend REST endpoints.
- Implemented transactional checkout to maintain consistency during order processing.

SCM - Inventory Management System (Group Project) *React.js, Spring Boot, Java, MySQL, REST APIs*

- Collaborated on a full-stack inventory management application for tracking products, stock levels, and inventory transactions.
- Developed product management features, including creation, updates, deletion, categorization, and SKU management.
- Implemented stock-in and stock-out transaction tracking with transaction history.
- Developed low-stock alerts based on configurable reorder levels.

- Integrated the React frontend with Spring Boot REST APIs and MySQL.

Event Hub - Student Event Management System *PHP, MySQL, JavaScript, HTML, CSS*

- Developed a web application for managing academic events, user registrations, and organizer activities.
- Implemented login functionality and administrative dashboards for event management.
- Integrated event analytics and email notifications.

OPEN SOURCE EXPERIENCE

- **Social Winter of Code (SWOC '26), SafeHaven:** Resolved front-end layout and alignment bugs, refined form validations, and styled buttons for mobile.
- **Open Source Connect Global (OSCG '26), blockchain-evidence:** Improved codebase documentation and code readability.
- **Social Summer of Code (SSOC '26), E-commerce:** Optimized UI pages and localized CSS files for pixel-perfect renders.

CERTIFICATIONS & ACHIEVEMENTS

- Docker for Absolute Beginners - KodeKloud
- Cyber Security Essentials (LFC108) - The Linux Foundation
- Agile Scrum Foundation - Simplilearn
- Front-End Web Development - University of Moratuwa CODL
- Cyber Security Pathway - Cisco Academy
- HackerRank: Java (Basic), SQL (Basic), CSS (Basic), Python (Basic), JavaScript (Basic)
- Python for Beginners and Web Design for Beginners - University of Moratuwa CODL
- SoloLearn: Python Course, SQL Course
